

To Whom It May Concern:

This communication serves to confirm that Maverick Generators CC is a loyal client and supporter of Volvo Penta, Southern Africa, and our products as well as an approved Manufacturing OEM conforming to the standard Volvo Supplier Agreement.

We can confirm that we meet both the ISO 9001 and ISO 14001 standards for Quality assurance and Environmental management and is certified by Lloyd's Register Quality Assurance (Approval Certificate's 937890 & 771827 respectively)

Our Warranty conditions on Industrial products entails a period of 24 Months/1000 hrs of operation, whichever occurs first, for Standby Applications (i.e. Generators) and 12 Months should the Standby rating be exceeded or 1000hrs reached in the first 12 Months of operation.

The above conditions falls under the International Limited Warranty and can be transferred to the End User

Detailed information regarding the above information is available on request and recipients can feel free to contact us for any additional information requested.

Yours in Penta Power
